

## BroadcastMed | Nutritionist Perspective: What sets UHealth aside from other Bariatric Surgery Centers?

---

**NOEL A.** What makes us unique about a bariatric practice. Number one, you have one of the best physicians in the world working on you. I say that not because I work for him but because the numbers speak for themselves. His rates, in terms of infection, in terms of complications, are very, very, very low. I mean that's the number one reason why you should come to University of Miami to have your bariatric surgery performed.

But we're a very family-oriented practice. Most of the employees who have been working here have been working for over 5 to 10 years. We're very close-knit. We try to keep our patients close-knit as well. We try to approach it as a family in terms of our patients afterwards. We always want to see them constantly. We always know what's going on in their lives aside from just their bariatric surgery.
